For Immediate Release

04.05.2013

Thank You.

FACT wishes to acknowledge the significance of Alan Turing through Craig Morrison and Joel Cockrill's expanded media practice as part of our contribution to the Battle of Atlantic Anniversary. Artists, Craig Morrison and Joel Cockrill, will be exhibiting their light work, [Thank You](#), at the [Battle of The Atlantic Commemorations](#) in Liverpool in May 2013.

Two powerful lasers will be programmed with Rolling Spheres or 'Hyperboloids' and will be positioned high above the city on The Royal Liver Building. These light beams will sweep through the darkness, illuminating the night sky, river and the sea with the message 'Thank You' in Morse code.

'Thank You' was originally commissioned by the Arts Council of Wales to commemorate the centenary of British mathematical genius Alan Turing, whose work at Bletchley Park was instrumental in cracking the Enigma Code. This achievement went on to save many lives during the Battle of the Atlantic.

Turing's work was crucial in cracking the U-Boat fleet coding known as 'The Enigma Code'. This naval code was far more complex than the similar coding used by the German Air Force, leading Turing to develop 'Banburismus', a statistical and logical technique of great elegance which allowed Britain to finally break German coded communications.

The piece is being exhibited to thank and remember the men and women who served in The Battle of the Atlantic, and to thank Alan Turing for the many lives he helped save.

Thank You was originally inspired by Turing's poetic Epitaph.

[Hyperboloids of wondrous Light](#)
[Rolling for aye through Space and Time](#)
[Harbour there Waves which somehow Might](#)
[Play out God's holy pantomime.](#)
